

SLEEVED EXTENSION CABLE KIT

WHITE/BLACK

Antec premium Sleeved Extension Cable Kit - White/Black features fully shielded and multi-layered with 16 AWG high-quality copper strands. PC cable combs ensure cable separation and increased airflow while maintaining an organized look inside your PC and keep your cables in a tidy arrangement.

16 AWG Conductor

Insulation Layer

PET Plastic Sleeve

The cable adopts a three-layer braiding design, and the outer layer is ultra-dense braiding. The middle insulation layer features acid and alkali resistance, flame resistance, moisture resistance, mildew resistance, etc.

PREMIUM INTERFACE

The high-quality segment used in the wire rod and a precise combination are machine-made to ensure the stability of the series transmission.

OUTSTANDING LENGTH

The length is 300 mm, which ensures that most users do not occupy the extra space in the cabinet when installing the extension cable.

24 pin ATX Extension Cable **x1**

4+4 pin EPS Extension Cable **x1**

8 pin PCI-e Extension Cable **x2**

6 pin PCI-e Extension Cable **x2**

300 mm

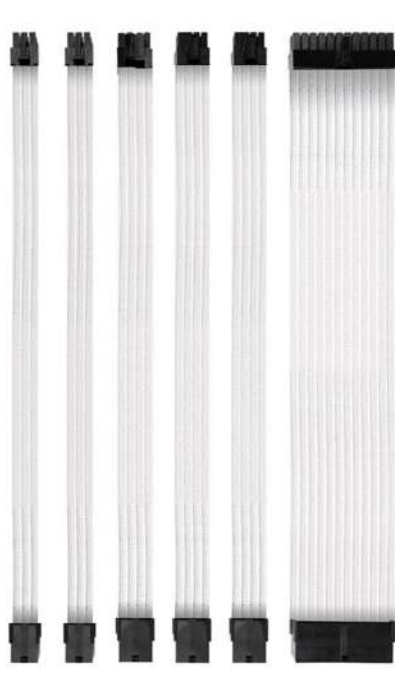

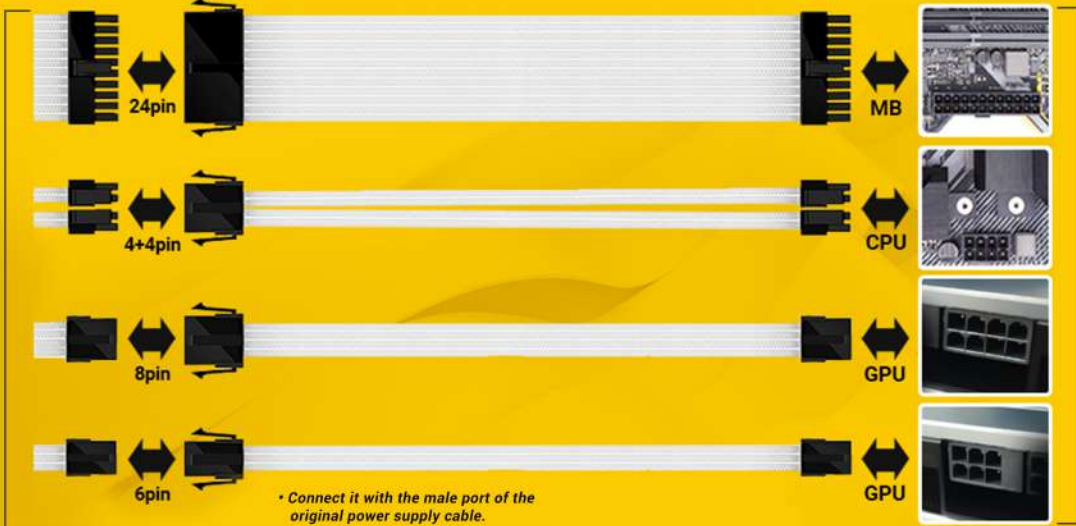

345 mm

MAGIC SHAPING

Once these cables are formed, they will not sag, shrink or expand, interfering with other components.

ONLY FOR EXTENSION

The extension cable kit cannot replace the original wire. It only has the effect of extension.
