The Neos 4000 4G01 fixed cellular terminal is the simple solution to slashing your call costs.

Wireless gateways can:

- Save on fixed line rental charges.
- Save on call costs to mobiles.
- Provide free calls to company intra-fleet mobiles.

Suitable for real estate agencies, elevators, call centres, counter phone for pubs, restaurants, car parks and motels to call taxis, staff and after hours attendance.

NEOS installs in seconds with SLT or PABX systems, and any number of units can be added.
